Dear Mom & Dad,

I thought you might like to see the letterhead that I am using for "Polek & Polek Inc."

I am extremely busy but enjoying every minute of it.

When I decided to form the corporation I initially wanted to call it Polek, Polek, & Polek for Dad, myself and the boys however my attorney advised against it as did the printer and advertising people. They all seemed to think it became too cumbersome and long. I think I agree with them. So we settled for Polek & Polek.

I kind of like the PP in red in the upper left hand corner as most of the customers should retain the logo in their mind and that's important.

I still have a lot of things to do so I won't have much time to myself for awhile until I get things underway. I certainly enjoyed the beach this past weekend and it really cut down on the driving staying at the apartment.

Glad to hear that you had a good time at the Lorimers over the weekend.

I know you will be glad to see Ginny when she gets down. Hopefully she can spend some time with you.

Love,

John

Please excuse the typing. I'm really out of practice.
